

SpaceTrek

Space Systems Program for Young Women in Appalachia.

SpaceTrek in West Virginia is a 9-day space system engineering residential summer program for rising 9th -12th-grade girls at the Statler College of Engineering and Mineral Resources at West Virginia University. During SpaceTrek, participants complete a space-related science mission under the guidance of aerospace engineers and master STEM educators. SpaceTrek aims to empower young women to pursue career interests and explore college and career opportunities in aerospace.
